

CHEST OF FOUR DRAWERS WITH CASTORS

The chest of drawers is provided with four drawers.

The upper drawer is provided of full aperture to allow to place in it the trial lenses and have all them at sight.

The chest of drawers is provided with four castors that allow to easily move the chest of drawers.

The chest of drawers is available in all colours of F.I.S.O. refraction units. The panels are available in either painted wood or wooden laminate wood or aluminium laminate wood.

External dimensions:
mm. 620x460x660 (WxDxH)

Internal dimensions of drawers:
mm. 520x370x85 (WxDxH)

The photos show the chest of drawers in grey colour with wooden laminate panels.
